PROPERTY DESCRIPTION

Snuggled on rolling acres you will find this rustic custom cabin at the center of your personal getaway. The property includes the cabin, a stocked & managed pond, a small barn, fire pit, 2 additional structures, privacy with seclusion yet convenience and all within your wooded oasis. This is a true log cabin that offers a wood burning stone fireplace and scenic views from every angle. The cabin offers space but maintains a cozy mountside feel throughout. Once utilized as a small family horse farm, the potential is endless. Currently the property as a destination is being used as a destination spot but it could easily be a weekend retreat, a primary residence or whatever you desire.
