

1712 SAULTER ROAD

\$699,900

Bedrooms: 3 Full Baths: 3 Half Baths: 0 Levels: 1 Story Square Feet: 2,514 MLS#: 1361925

PROPERTY DESCRIPTION

This all-brick home is quiet, private and lives large. A great combination of traditional and open, the home has well defined spaced but offers great flow from room to room and inside to outside. The finished basement offers a nice den with a full bath that could be a great guest room / 4th bedroom. The whole house has fresh paint, refinished hardwood floors and brand New Thermador appliances. The inside-outside living makes the home a pleasure to spend time in as a family or when entertaining. The laundry room might be the largest and most functional that you can find in Homewood and the storage room next to the laundry is huge. The work area in the first garage is perfect for hobbies and the walk-in safe is great for storing valuables and is a good storm room. The drop zone sits perfectly between the garage and the laundry. The home sits way off the road and with no visible neighbor behind you will enjoy the privacy while still being in the middle of all that Homewood has to offer
